Purchasing a Ram / Ram Management

Purchasing a ram is an investment in your sheep/flock. The rams in this sale have been inspected but how they perform is up to the purchaser. Keep them on a reasonable plane of nutrition until they go out with the ewes. It is possible that they will have received supplementary feeding prior to this sale.

When you turn your rams in with the ewes be sure to either use a raddle or harness or some form of mark which you should change after 17 days. Check that the harness is fitted correctly, making sure that neither the harness nor the crayon holder rubs the ram's skin, especially under the front legs and ensure that the crayon stays in place on the brisket. The ram should be checked regularly to ensure the harness is in the right place and that the crayon has not worn down. If you have ewes returning you will be able to address the problem. Don't wait until you scan your ewes to find out things have not gone as planned.

Breed Points

Breed Points can be found on the Society website. If any new purchasers require any help or advice on Sale Day please contact the secretary so that a member of the committee can help you on the day.
